2025 BYOD Specifications

Glendalough Years 4-6

To ensure a consistent and seamless learning experience for our Year 4-6 students at Glendalough, we require the use of Windows devices for our BYOD program. By standardising on Windows devices, we aim to create a more cohesive classroom environment, facilitating easier collaboration and access to educational resources.

Microsoft Windows Devices

Screen	**Memory (RAM)**	**Storage (HDD)**	**Wi-Fi**
12.5"	**16GB**	**256GB**	**802.11n/AC**
Charging Port		**Battery**	
USB-C		**14-hour battery**	
Accessories			
3 Years warranty			
Accidental Damage Cover			
Protective case/cover			
HDMI Adapter to connect to LCD screens and projectors			

Heyington & Waterford Years 7-12

We offer our Years 7-12 students at Heyington & Waterford the flexibility to choose between Windows or Mac devices for their BYOD program. This allows students to select the platform that best suits their individual learning style and preferences, providing a more personalised and enjoyable educational experience.

Need Help Deciding?

JB Hi-Fi Education has created a convenient BYOD purchasing portal exclusively for St. Kevin's College families. This portal offers a curated selection of devices that meet our program's specifications, ensuring compatibility and seamless integration with our learning environment.

In addition to the device itself, JB Hi-Fi provides extra services such as onsite warranty and dedicated service support at the St. Kevin's College IT Helpdesk.

Families are welcome to source compatible devices from any retailer of their choosing.
